

# DEFENCE GENERATORS

Indigitech provides custom power systems for the Defence sector, featuring a range of diesel AC and DC generators designed for military applications. These units, powered by reliable Cummins Onan and Kubota engines, deliver robust performance in extreme environments and emergencies.

## Man-Portable Generators

Model	Part Number	Description	Output
2.5kW DC MOTS	GCM2.5DC	Rugged design, Man-portable, Can operate on diesel or AVTUR, Connection via NATO standard outlet, Can be parallel connected	2.5W DC
3kVA AC MOTS	GCM3AC	Rugged design, Man-portable, Can operate on diesel or AVTUR, Connection via NATO standard outlet, Can be parallel connected	3 kVA Prime Power Single Phase

## Modified COTS Generators

Model	Part Number	Description	Output
Kubota 5.5kVA	GKD5500	Kubota Diesel Engine Z482, Water cooled Diesel, Single phase 2x15A 3-pin IP66 with RCDMCBO, Sawafuji Alternator, DeepSea controller, IP66 RCD Protected Outlets as standard, Centre lift	5.5kVA Prime Power Single Phase

Model	Part Number	Description	Output
Kubota Powered-Modified COTS	GKD11	Kubota – 11kVA 1500RPM Water Cooled Diesel DeepSea Controller Long Range Bundled Fuel Tanks Low noise signature	11kVA Prime Power Single Phase
Kubota Powered-Modified COTS	GKD145	Kubota – 14kVA 1500RPM Water Cooled Diesel DeepSea Controller Long Range Bundled Fuel Tanks Low noise signature	14kVA Prime Power Three Phase
Kubota Powered-Modified COTS	GKD15	Kubota – 15kVA 1500RPM Water Cooled Diesel DeepSea Controller Long Range Bundled Fuel Tanks Low noise signature	15kVA Prime Power Single Phase
Kubota Powered-Modified COTS	GKD20	Kubota – 20kVA 1500RPM Water Cooled Diesel DeepSea Controller Long Range Bundled Fuel Tanks Low noise signature	20kVA Prime Power Three Phase

## Military Specification (MOTS) Generators

Model	Part Number	Descripton	Output
Cummins Rugged Power- MOTS	5RMP	Full Mil Spec Generators 5kVA 1500RPM, Water Cooled Diesel, Parallel Controllers Long Range Bunded Fuel Tanks, Battlefield mobility, Low noise signature	MilSpec 5kVA Prime Power Single Phase
Cummins Rugged Power- MOTS	10RMP	Full Mil Spec Generators 10kVA 1500RPM, Water Cooled Diesel, Parallel Controllers Long Range Bunded Fuel Tanks, Battlefield mobility, Low noise signature	MilSpec 10kVA Prime Power Three Phase
Cummins Rugged Power- MOTS	15RMP	Full Mil Spec Generators 15kVA 1500RPM, Water Cooled Diesel, Parallel Controllers Long Range Bunded Fuel Tanks, Battlefield mobility, Low noise signature	MilSpec 15kVA Prime Power Three Phase
Cummins Rugged Power- MOTS	30RMP	Full Mil Spec Generators 30kVA 1500RPM, Water Cooled Diesel, Parallel Controllers Long Range Bunded Fuel Tanks, Battlefield mobility, Low noise signature	MilSpec 30kVA Prime Power Three Phase
Cummins Rugged Power- MOTS	60RMP	Full Mil Spec Generators 60kVA 1500RPM, Water Cooled Diesel, Parallel Controllers Long Range Bunded Fuel Tanks, Battlefield mobility, Low noise signature	MilSpec 60kVA Prime Power Three Phase

Model	Part Number	Descripton	Output
Cummins Powered- Modified COTS	GAD60	Cummins Diesel engine 4BTA3.9G2, DeepSea Controller, Stamford Alternator, 3x63A 3 Phase, 1x15A single phase outlet, Bunded fuel tank with forklift pockets	60kVA Prime Power Three Phase

Applications are indicative only.

Get in touch today to discuss your requirements. Our team is ready to provide expert guidance and a competitive quote tailored to your needs. Contact us using the details below and include your specific requirements, such as quantity, target lead time, brand/part number, and delivery address.
