

Microsoft Surface Hub 3

Dissolve meeting boundaries and bring collaboration to life

Microsoft designed **Surface Hub 3** to combine the power of a collaborative digital canvas, seamless video conferencing, and intuitive touch and pen capabilities. These features come together to enable dynamic teamwork—wherever and however your people join in. Give your employees the power to achieve more together through real-time collaboration and information sharing.

THE EMPLOYEE EXPERIENCE MATTERS

Hardware and software come together to create a seamless Microsoft Teams Room experience for every participant. Between Microsoft’s investment in human-centered design and Surface’s pioneering history of premium form factors, Surface Hub 3’s technology fades into the background so collaboration stays front and center.

MANAGE REMOTELY, STAY SECURED ANYWHERE

Deploy with ease, manage your devices from anywhere, and maintain secured control of every Surface Hub 3’s with Microsoft Intune, Microsoft Teams admin center, and Windows 11 Pro. As part of the Microsoft ecosystem, Surface Hub 3’s built-in, chip-to-cloud security¹ keeps your employees and your organization safe.

PUTTING YOUR BUSINESS FIRST

Versatile accessories and mobile stands adapt your collaborative canvas to your evolving space and technology needs. Through modular design that unlocks reparability and ongoing upgrades, Surface Hub 3 protects your investment by maximizing value throughout its lifecycle.

Auto-framing through the AI-powered Surface Smart Camera gives participants a dynamic view of the room.

In-cell display technology brings a human touch to the touchscreen experience.

Surface Hub 3 provides the lightest device, highest resolution, and thinnest edge of any device in its category.

Images and video show up crisp and clean on the 8-bit, color-calibrated 4K HDR screen.

Screen rotation enables fluid transitions from portrait to landscape to flex the format to the task at hand.

The 8-element MEMS linear microphone array ensures everyone’s voice is crystal clear, whether they’re in person or remote.

With 4,096 pressure points, Surface Hub 3’s display delivers the most natural pen experience of any device in its class.

The APC™ Charge Mobile Battery² for Surface Hub 3 provides the power to roam.
